

# **EAST COAST GENERATORS Pty. Ltd.**

**(Incorporating Generator Rentals Australia)**

## **ENVIRONMENT POLICY-ECG-EP 102**

As a leading provider of generators for Hire - Sales – Service we are committed to continuous improvement on how we can deliver the best environmentally friendly products and services.

This Policy will be applied to all workplaces managed by ECG. Its purpose is to maintain and enhance the quality of the environment for the benefit of our customers, employees & the general public.

We recognise our moral and legal responsibility to provide a safe and healthy environment for employees, contractors, clients, visitors and the community. This commitment extends to ensuring that our business operations do not have any negative impact on the local environment, or put the local community at risk.

We recognise that commitment to the environment is a shared commitment between the business, managers, supervisors, employees, contractors, suppliers and other stakeholders.

ECG will raise awareness among employees, contractors and suppliers to ensure they have the skills, resources and support to meet their environmental responsibilities;

ECG will comply with any and all legislation, regulations, industry standards, operating procedures and customer requirements for environmental protection and management; and

We recognise and support the rights of all parties to express their concerns about the workplace environment and expect those concerns to be addressed.

We believe that all works can be carried out without harming the environment, we believe that any environmental impact can be prevented and that a “ZERO INCIDENT” target can be achievable.

We will:

- promote a safe environment in our workplaces and give the environment the same importance as other key considerations
- comply with all relevant legislation, regulations, codes and contractual conditions
- prevent pollution of the environment by activities over which we have control
- conduct business with others who have a similar environment commitment
- continually improve our management of the environment by setting realistic objectives and targets
- endeavour to re-use and re-cycle our materials, where possible, and dispose of waste in an appropriate manner whilst protecting the environment from any such re-use, re-cycle or disposal

We will:

- review the policy, procedures, forms and their physical application on an annual basis
- review our performance and achievements on an annual basis
- make modifications to the Environment Policy as and when required
